DENTAL SUCCESS NETWORK REFINING VENDOR

When it comes to refining your dental scrap, **we're experts.**

130 number of years Garfield has been in continuous business (est. 1892)

13 consecutive Townie Awards since 2011 for Best in Scrap Refining (Dentaltown Mag)

IMPORTANT RECYCLING TIPS

Collect white and yellow metal, which may contain valuable palladium, silver, and gold often present in dental scrap

Put collected crowns, bridges & PFMs in your Garfield container, NOT in biohazard

It's OK to leave the root or tooth structure, it'll melt off in processing.
